Application for financial support for a mobility program

As indicated by our preliminary application sent to the ARTES board, a graduate student mobility program will be carried out in connection with the "Hardware/software codesign" project at Linköping University. Our graduate student, Paul Pop, will visit Volvo Technological Development at Göteborg for two periods. The first one will be in 1998 for about one month and the second one will be in 1999 for two months.

We would like to apply for financial support to cover the additional cost for the mobility program. This additional cost is mainly due to the expenses for accommodation at Göteborg and travelling. It is estimated as followed:

A furnished tourist "apartment" costs about 280 SEK per day.
A return trip costs SEK 1 450 SEK.

$280 * 90 \text{ days} = 25\,200 \text{ SEK}$
 $1\,450 * 3 \text{ times} = 4\,350 \text{ SEK}$

The total additional cost is ca. 30 kSEK.

Sincerely,

A handwritten signature in black ink, appearing to read 'Zebo Peng', with a horizontal line underneath.

Zebo Peng
Director of ESLAB
