## **SUPPORTING LETTER "Real Time Mobile Communication"**

### **HMS facts:**

HMS Fieldbus Systems AB develops and markets solutions within industrial communication systems, fieldbus technology. The core product is the AnyBus concept, a line of interchangeable fieldbus modules to the size of a credit card. Based on innovative technology, HMS Fieldbus Systems provides a constant flow of new and upgraded products, which are smaller, faster and smarter. Some customers: ABB, Yokogawa, Hitachi, Atlas Copco, Yaskawa, Rockwell, Milltronics...

### **HMS part in project:**

HMS will mainly contribute in three areas in the project:

- Member of Reference Group
- Join and evaluate Case Studies
- Contribute with experience in Industrial Communication Applications

With best regards,

**HMS FIELDBUS SYSTEMS AB**

**STAFFAN DAHLSTRÖM**  
Vice President
